V-Cop GOLD AVV Wired Intrusion Alarm Panel

Product Description:

V-Gold AVV consists of single door enclosure which houses Alarm System, Audio+Video Recorder and Battery. It also provides external 20 Key keypad with LCD display. V-Cop Gold AVV is designed considering Safety, Security & Surveillance needs of Bank Branches, Jewellers, Bungalows, Villas. Bank Branches are subject to theft, vandalism of assets. Though banks are providing for the Security guards, it is expensive to maintain them at every site. Also one has to ensure their presence at all the times which is difficult to manage. Security guards can not provide all the evidence required for identifying the culprits and deterring them from crime.

Assets in Banks like ATM Machines, Air conditioners, UPS, UPS Batteries are subject to theft. Bank chest room and doors need monitoring. Other sensors like vibration sensors, glass break sensors, motion sensors can detect corresponding events which could be analysed to detect the intrusion. Our alarm panels identify the abnormal conditions and raise an alert to the central monitoring station (CMS) with the help of Broadband or wireless (GSM or CDMA) network. They use latest SIA DC09 IP protocol to communicate with monitoring software.

Two way voice is used to warn the intruders. V-Cop Gold AVV has integrated audio & video recording facility.

Panel has Ethernet connectivity or optional GSM/GPRS communication facility.

V-Cop Gold AVV has provision for installing SMF battery for providing typical backup time of about 7-8 hours.

Other features include connection to access control keypad, Power+Temp+Signage+Diesel Genset monitoring and reporting to the CMS.
