

**WDMS+
Wireless Door Magnetic Sensor**

Product Description:

This product is a battery operated long life, Door Magnetic Sensor, adopting unique structure design and advanced microcontroller technology, able to monitor and detect theft in real time. Wireless door sensor is the ideal solution for installations where small size and aesthetics are important. It provides a reliable, convenient and cost-effective solution for door and window protection. These devices are powerful and versatile enough to solve even the toughest, most labor intensive installations.

Product Features & Specifications:

- **Up to 5** Year battery life.
- Low Battery Warning.
- Hidden antenna.
- 133 Meter wireless range.
- Test button.
- Stylish look.

Technical Specifications

Power Supply	1,5VDC(Battery)	Battery Life After Low Battery	> 30days
Sensor Type	Magnetic Reed Switch	Output	RED LED Intrusion Indication Low Battery LED Indication RF Signal (433Mhz Freq.)
Alarm Current	< 2mA	Sensor Range	133Meter (Open Area)
Humidity	10% to 90% Rh	Working Temperature	-10°C to 50°C

Applications
