

## Aerosol Release Module - ARM

### Product Description:

ARM is called as a Aerosol release module. It is a external accessory use for re-lease extra aerosol with same panel. This module is fixed on top of the zone board (Interface PCB).

ARM have two RAC output for releasing aerosol units. Each RAC can provide max. 2.4A current to the output. Maximum TWO aerosol units can be release by each RAC. There name is RAC 3 & RAC 4. RAC 3 is applicable for Zone 1 & 2 and RAC4 is for Zone 3 & 4.

### Product Features & Specifications:

- Easy Installation
- No Need to require extra power supply of operation
- Small in Size
- Low Cost
- No need to configuration
- Release up to 2 aerosol CAN / per RAC

### Technical Specifications

<b>Operating Voltage</b>	12VDC OR 24VD (Optional)	<b>Output</b>	Two RAC (RAC3 & RAC4) (2.4 A max./per RAC)
<b>Input</b>	Two	<b>Humidity</b>	5 to 90% Rh
<b>Size</b>	(90x50x25)mm (LxWxH)	<b>Working Temperature</b>	20°C to 55°C

### Applications

- Power plants
- Patch panels, electrical panels
- Chemical storage room, etc.
